

Zoom/Hangout/Teams tabs closer

Context

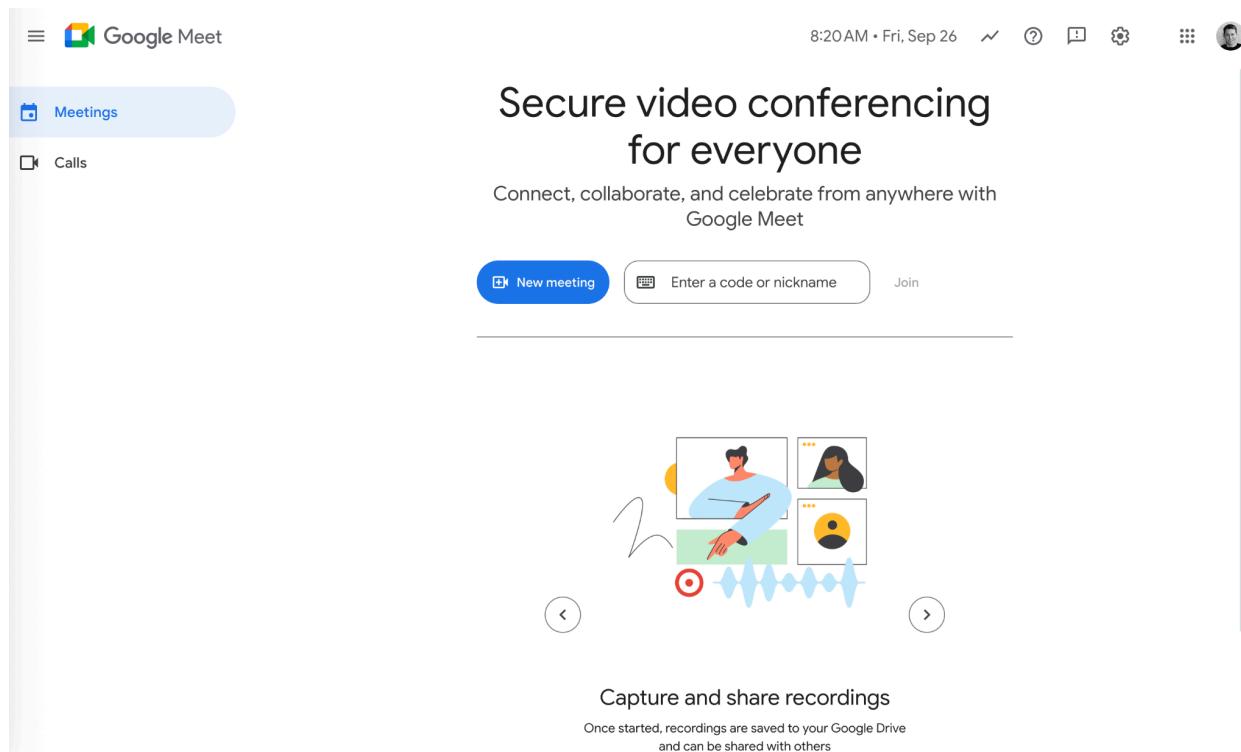

Whenever I click on a zoom or teams link it would open a web page such as:

- <https://us06web.zoom.us/j/84262242632?pwd=obCnBh4DUeYCL9Mns0e102fROar9tq.1&jst=2#success>
- https://teams.microsoft.com/dl/launcher/launcher.html?url=%2F_%23%2FI%2Fmeetup-join%2F19%3Ameeting_MWVINTY1MjUtY2QwOS00NjRILTIkNjctNzRjYTAzOTJiMzg2%40thread.v2%2F0%3Fcontext%3D%257b%2522Tid%2522%253a%2522fb37c808-6ca7-40eb-8746-85795efcbd36%2522%252c%2522Oid%2522%253a%2522b9ee2756-b5d3-431d-bf13-6de2ed795ea7%2522%257d%26anon%3Dtrue&type=meetup-join&deeplinkId=a91860cd-9307-439b-9a02-2f8e0829657b&directDl=true&msLaunch=true&enableMobilePage=true&suppressPrompt=true

These pages can be closed after the meeting is over or even after the meeting started actually

For Google meet the meeting happens in the browser but once it's done the web page will go back to the google meet home page:

<https://meet.google.com/landing?authuser=0>

Instructions

You need to build a silent chrome extension that will work in the background and will identify when these tabs are open but are no longer needed:

1. For zoom - if it was open for over 10 minutes
2. For teams - if it was open for over 10 minutes
3. For meet - if the tab was already in a meeting (history would contain a meeting URL - <https://meet.google.com/sfg-bcmp-ugm?authuser=0>) and is now in the Google Meet home page

Also I want to have a counter for the chrome extension so if I click on the chrome extension icon from the extensions dropdown it shows me how many tabs it closed for me
